

Global Leather Co-ordinating Committee - GLCC

The Global Leather Coordinating Committee (GLCC), was established in 2011 to bring together key representatives of the leather sector's three international organisations – International Council of Tanners (ICT), International Council of Hide Skin & Leather Traders Associations (ICHSLTA) and International Union of Leather Technologists and Chemists Societies (IULTCS). GLCC meets on a regular basis, usually at major international leather events, in order to discuss harmonised approaches to issues affecting the industry and to agree common actions and position statements on behalf of the sector.
